CONSULTING & MARKETING

Dear Beefmaster Breeder

Two great breeding programs with documented, unparalleled success within the breed and sale ring are combining here to bring you a super sale offering! **Jones Farm & Cottage Farm Southern Tradition XV Sale**, to be held **Saturday June 27th at the farm in Savannah, Tennessee**, is your opportunity help yourself make your breeding program better!

Clark Jones and **Cottage Farms** have both built their reputations on proven success in each of their breeding programs. Each has been dedicated to producing a better Beefmaster product, and they both utilize every tool available to get the job done. They have and still do share ownership in great individuals and they both continually go the extra mile to collect data to improve their breeding programs while helping the breed association build credibility. They have won futurities, have been *Breeders of the Year*, have represented their region at BBU and have helped develop the Southeast as a staple for great Beefmaster. So, it is no surprise that they are joining together to offer you a tremendous selection of **Seedstock Beefmaster**.

It starts with the incredible females in every category. They have the **visual quality, pedigree, individual performance and carcass traits** that will catapult your breeding program to new heights. Fantastic **Pairs** with every trait you desire will be on display, and there will be **Bred Heifers** that are the total package you have been searching for but seldom find. Then, the **Open heifers** with cutting edge genetics from some of the most sought after genetics in the breed and a very select group of **Herdsire prospects** that represent some of the most predictable, exclusive genetics and carry the overall quality necessary to qualify as a Herdsire. Finish the sale offering off with the initial **semen offering** on **CF Masterpiece** as well as semen from two outstanding individuals -- **EMS Ring of Fire**, a black Polled bull with credentials and pedigree second to none and **CF Dr. Love**, a powerhouse individual with product throughout the sale to substantiate his breeding prowess. These are just the highlights of this dynamic sale offering. Add in the frozen embryos and other special semen offerings, and this is your opportunity to make your breeding program better!

Legendary Beefmaster breeders with a passionate belief in your success in mind make this event one that is only made better with your attendance! Make plans now to join us in Savannah and come early for the fellowship. We do have a **sale DVD available**, and the **sale will be broadcast live, with live bidding available** on the Internet.

If myself or any of the sale staff can be of any assistance in making selections or purchases do not hesitate to contact any of us.

See you in Savannah!

Bruce Robbins

Dear Beefmaster Breeders,

On behalf of my family and the Stonecipher family, we would like to take this opportunity to invite you to our production sale June 27, 2015.

Jones Beefmasters and Cottage Farm combine 67 years of breeding Beefmaster cattle with a passion and love for Beefmasters unmatched in our industry. We share the competitive spirit and determination required to breed and produce superior seedstock cattle that perform in every aspect of the purebred and commercial industry.

Every animal selling will have certified and approved BBU performance information that will fit in the top of our breed. The legendary genetics represent the genetic consistency required to move our breed forward in the future. Nowhere will you as a breeder have the opportunity to purchase and own sons and daughters from the legendary Oasis cow, whom many believe to be the best ever.

Total certified performance and unmatched conformation will make for a special offering in the Southern Tradition 2015 Sale.

If we can assist you in any way prior to the sale, contact myself, Rick, Justin Williams, my ranch manager or our sales team.

We look forward to seeing you in Savannah and hope you can attend our Friday night dinner and social.

Kindest Regards,

Clark Jones

BID AND BUY LIVE USING THE INDUSTRY'S BEST REAL-TIME, INTERACTIVE ONLINE AUCTION SERVICE.

Advanced Video Auctions (AVA) provides live video auctions, webinars and many other marketing and meeting presentations in real time over the Internet.

The **AVA** system was created and developed especially for the marketing and promotion of livestock and is well proven to provide a unique presentation for various livestock events via the Internet.

Videos, still images and detailed information on each of the lots offered are available prior to the sale and may be viewed anytime at www.AdvancedVideoAuctions.com. You do not need a username or password in order to view the sale offering prior to the sale, but we do encourage you to **register early** for the sale to obtain your username and password that you will be able to use on the **AVA** system for each sale where you desire to become a buyer.

On sale day, you will log on with your username and password and will then be able to view the auction broadcasted with either live streaming video or pre-recorded video of the lots, and on some events, you will see both. In addition, the **AVA** system provides **live streaming audio** from the sale site so you don't miss any part of the auction action, hearing the auctioneer and other comments announced.

Plus, you can **privately chat** in real time with the on-side bid administrator.

Please go to www.AdvancedVideoAuctions.com to register for the sale or event. You only have to register once for all events held! Please try to register prior to sale or event day. Also, please note that payment terms are unique and specific for each sale. Please review any of the sale terms ahead of time, and if you have any questions, you can contact the sale personnel designated for that auction.

Optimal Connection Speed: DSL, Cable Internet or any Broadband Internet connections. Minimum download speed of 512 is recommended.

Computer Requirements: Most any computer six years old or younger with the latest versions of the Internet browsers Internet Explorer or Firefox with Adobe Flash Player installed is recommended. You can download the current version of the Flash Player at www.adobe.com.

Best Viewing: Set your computer screen to at least 1024 x 768 pixels.

Sale Day Help Desk: 888-354-0181

ACE IN THE HOLE

2012 Grand Champion Louisiana State Fair - 2013. National Beefmaster Grand Champion West Texas fair and Rodeo - 2014. State Fair of Texas - 2013. Grand Champion West Texas Fair and Rodeo - 2014. BPG Show Build of the Year - 2014. Fort Worth Grand Champion. I believe Ring of Fire, first by his show career and now by his first calf crop has exemplified exactly what we expected from this great young herdsire. His calves as you will see from the display of his progeny show the same qualities of length, depth, width of base that Justin and I saw in him when we decided to add him to our herd. He is an incredible breeding machine as he bred 40 cows in one breeding season and maintained his body condition in a cold TN winter. His sons and daughters we believe will play an important role in the future of the Beefmaster Breed both in the seedstock and commercial Industries. Black and Polled and ready to take your program where you need to go. SALE DAY SEMEN PRICE OF \$55 per unit!

CLARK JONES
 CALF INFORMATION
 ID: 99/15 Sex: M
 BBU No. C1049739 Color: RED
 DOB: 1/7/2015

Proven Donor Pair Sugar Time Cosigner Clark Jones and Dr. Larry Johnson Pedigree of calf Bull by Dr. Love. Without any question, one of the very best females to ever walk on our ranch. An only daughter of Red Sugar and the 601 donor at E & E Ranch. Sugartime is really bred in our breed with Pheanie Mae, Sugar Ann, Miss Lee and Vanna, all up close in her pedigree. I always worked to find this genetic combination in one cow. In our last sale we sold two Dream Catcher females that averaged \$10,500. Sugar Time has been flushed three times in her life averaging 18 good embryos per flush and her last flush in April she had 22 good eggs. Now stay with me and look at her Dr. Love bull calf at side, if he is not a herd sure than I do not know this business. Awesome donor cow, super bull calf, genetic power house all for your consideration

OASIS
Fact Based Breeding

CF 670 – Oasis X Synergy

*He sells at the Southern Tradition XV Sale
Savannah, Tennessee • June 27, 2015*

DOB 11/15/2012 • BW 69 • 205 Avg Wt 782
365 Avg Wt 1,289 • IMF 3.16 • REA 1.27

CF 670 is an incredible example of the performance, style and class Oasis puts into her offspring. He promises to be one of the top herd sire prospects to sell in 2015.

As we enter the spring breeding season, it is imperative that your breeding decisions are based on FACTS – not hype or the flavor of the day

- **Oasis** is a proven performance donor ... 170 progeny with a Weaning Weight EPD accuracy of .9 (that is almost unreached for highly proven sires, and is unheard of for dams). The best most top dams can reach is .4.
- **Oasis** ranks in the top 1% for Weaning Weight and Yearling Weight EPD with unheard of accuracy levels.
- **Oasis** ranks in the top 1% for scrotal circumference EPD. This is the only fertility measurement in current EPDs.
- **Oasis** couples her explosive growth with top 35% REA and top 30% IMF EPDs. This exhibits that you can truly have growth and carcass in the same package.
- **Oasis** is dominant in producing “**BIG SPREAD GENETICS**”. Big spread genetics refers to the very small Birth Weight EPD coupled with the huge Yearling Weight EPD.
- **Oasis** overrides several genetic negative correlations. Only in a female of such dominance would you see an unheard of 50 lb. Birth Weight to Yearling Weight EPD spread. A -1 Birth Weight EPD stacked against top 1% Weaning and Yearling Weight EPDs reveals the true genetic power of this legendary donor.
- **Oasis** EPD percentile rankings.

414 CF DR. LOVE

COTTAGE FARM

Breeder: COTTAGE FARM
DOB: 3/16/2010
BBU No. C995941
Sex: M
Color: RED

Dr. Love is without question the best Spartacus son ever produced in the breed. Extremely straight lines, great sheath, perfect balance and thickness. He's bred to be this good. Look at his pedigree. He is the perfect breeding of decades of planned matings. His first offspring are well represented in this sale, and they are outstanding. Makie and Normas Jean Bounds purchased an 1/2 interest in his first son Adonis. Take a hard look at his offspring offered throughout the sale and we think you will agree he is something special. Dr. Love is an essential part of anyone's breeding program. SPECIAL SALE DAY SEMEN PRICE OF \$100 per unit!

Bred To: Dr. Love C995941

We really did not want to let this great young Captain Sugar daughter leave the herd, but we were running short on numbers and had to make some difficult choices. She is a own daughter of Captain Sugar and the great Amazing Ace female. We flushed Amazing Anne one time producing 12 viable embryos. Her calf that weaned this spring is a legitimate prospect.

SALE TERMS AND CONDITIONS

Bidding: Each animal will be sold to the highest bidder without reserve.

Bidding Dispute: The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.

Cash Sale: All sales are for cash unless satisfactory credit arrangements, including any possible reservation of security interest by the seller, have been made with the seller prior to sale. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, Section 10 of the BBU Bylaws.

Buyer's Risk at the Time of Sale: The risk of loss and injury of each animal passes to the buyer as soon as it is sold; however, it is the obligation of the seller to ensure that sold animals are fed and cared for free of charge to the buyer until loaded for shipment or until the expiration of 24 hours after the sale, whichever occurs sooner.

Certificates of Registration: A transferred certificate of registration must be furnished by the seller free of charge to the buyer for each animal within 45 days following the later of either the date of sale or upon the receipt of full payment.

Health Guarantees: Unless otherwise announced, the seller guarantees that all animals are eligible for interstate shipment as required by applicable federal and state regulations.

Announcements: If there is any inconsistency in information in terms of the sales materials (e.g. sale catalog, supplemental sheets, sale day announcements, 1) sale day announcements will control over both the supplement sheet and the sale catalog, and 2) the supplement sheet will control over the sale catalog.

Identification Responsibilities: 1) Prior to the sale, the seller must ensure that each animal has a readable permanent identification mark (tattoo, hot-iron brand or freeze brand) corresponding to its registration identification and 2) The buyer must check all permanent identification marks for accuracy upon possession and report any discrepancies to the seller immediately.

Artificial Insemination (AI) Certificates and Embryo Transfer (ET) Bills of Sale: AI certificates and ET bills of sale will be the responsibility of the seller.

Conformance with Registration Guarantees: 1) The seller guarantees that all sold animals are registered in accordance with the rules of BBU and 2) The seller guarantees to the buyer that all sold animals conform to the registration certificate as entered in the Herd Book of BBU.

Official BBU Information: All existing available official BBU information, including calf source, service sire and/or potential service sires (registration numbers) and performance data must be included in the final sales catalog.

Pedigree, Performance and Genetic Information Guarantees: The seller guarantees to the buyer that: 1) the pedigree, performance data and genetic information, as represented in any sales materials (including sale catalog, supplemental sheet or sale day announcement), are accurate; and, 2) all information from the BBU database is accompanied by an accurately stated Adopted October 31, 2013 "as of" date. The absence in any sales materials of a specific designation on the pedigree of an animal does not establish that the animal in question is not a carrier of such genetic defect.

Breeding Guarantees:

1) The seller guarantees that all animals are breeders, with the exception of: (a) calves under 12 months of age at the time of the sale; (b) animals shown after the sale has occurred (in such cases, the breeding guarantees, if any, will be those guarantees as are agreed upon between the seller and the buyer); (c) animals who suffer injury or disease following the sale; (d) animals administered any super ovulation drug or growth hormone after purchase; and, (e) animals subjected to gross negligence by or willful misconduct on the part of the buyer.

2) Bulls eighteen (18) months or older are guaranteed by the seller to have passed a Bull Breeding Soundness Evaluation (BSE) and to have been certified a satisfactory potential breeder by a licensed veterinarian within forty-five (45) days prior to sale date. Results of the BSE must be reported on a fully completed official form and attached to the health papers required for the sale.

3) If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a BSE certified by a licensed veterinarian, buyer must send seller written notification of the failure of the test within one-hundred and twenty (120) days from the date of sale and include the BSE test results. Within sixty (60) days after seller's notification of the failed BSE test, buyer and seller shall identify a mutually agreeable licensed veterinarian or technician certified by a licensed veterinarian to perform another BSE on the bull at the buyer's expense. The results of the test shall be deemed final and conclusive of this matter and binding on buyer and seller. If, in the opinion of said veterinarian or technician, the bull is unable to pass a BSE and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer which shall include the official form used by the Society of Theriogenology or the official BBU BSE form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. Unless otherwise agreed by the buyer and the seller, the seller makes no guarantees with respect to the ability to freeze semen.

4) Females younger than twenty-four (24) months of age can be sold as open. Females sold as open are guaranteed by seller to be open. Any female is considered a breeder if she is certified to be pregnant by a licensed veterinarian at the time of sale and/or has a nursing calf at side with no further fertility guarantee. Cows (including donor cows) with calves at side six (6) months or older must be certified to be pregnant by a licensed veterinarian.

5) "Safe-in-calf" females are guaranteed by the seller to have been examined by a competent veterinarian or reproductive technician and determined to be safe-in-calf by examination or other proven method (e.g., ultrasound, pregnancy blood tests, and rectal palpation). "Served" females are not guaranteed to be in calf. "Exposed" females have been exposed but are not guaranteed to be in calf. "Open" females are guaranteed by the seller to be without calf.

6) A Donor female (unless otherwise agreed by the buyer and the seller) is a female: (a) that has been used in an embryo transfer program and shall not be guaranteed to be a breeder after the date of the sale, (b) that is not guaranteed to be a breeder after the date of the sale, when that female is to be used, or attempted to be used, in an embryo transfer program.

7) The seller makes the following guarantees with respect to all "pregnant recipients": (a) that the female is pregnant, (b) that the resulting calf is of the pedigree represented, and (c) that the resulting calf is of the sex represented (if so represented).

Flushes and Time Requirements: A flush consists of all viable embryos, transferred or frozen, received from a female as the result of the administration of any super ovulation drug. The sale of a flush or resulting pregnancies must specify in the sale catalog the number of pregnancies guaranteed by seller and the disposition of any other pregnancies resulting from the flush, the disposition of any frozen embryos resulting from the flush and any additional charge for the recipient cows. The maximum time for the delivery of the guaranteed results must be specified along with a payment schedule. Non-delivery or only partial delivery by the specified time by the seller will result in a pro-rata refund of all monies paid by the buyer for such flush or pregnancies not delivered.

Disclosure of Prior Procedures: The seller must disclose in the catalog or from the block any circumcision or other surgical alteration of any underline of any male or female known to the seller and of any single egg or super-ovulation flush of any female known to the seller.

Semen: Unless otherwise agreed by the buyer and the seller (with respect to the sale of semen), the seller makes no guarantees with respect to the performance or characteristics of such semen and the buyer is purchasing such semen "as is."

Embryos Embryos being offered for sale will be sold "as is" unless the seller provides additional guarantees.

Clones: Only BBU replication cell-cloned animals shall be eligible for registration and eligible to sell. Genetically modified animals shall not

be eligible for registration and cannot sell. Cloned animals shall be guaranteed by the seller to be breeders under the same terms of the agreement for females and bulls. Any additional guarantees with respect to clones shall be by separate agreement between buyer and seller.

No Sex Guarantees: There are no representations as to the sex of offspring unless the seller makes a specific guarantee that offspring will be of a particular sex.

Disclosure or Retention of Genetic Materials: If seller retains any genetic materials of an animal being sold that can be used for cloning, the seller must disclose such fact to any potential buyers prior to the sale.

Privileges of Return or Adjustment Options:

1) With the exception of any applicable transportation expenses described herein, a seller shall never be liable to a buyer for an amount greater than the original selling price of any animal sold under these Sales Terms and Conditions.

2) Unless otherwise stated, all claims for adjustment or refund must be made in writing to the seller within 180 days following the sale of the animal in question.

3) If an animal is claimed to be a non-breeder, the animal may be returned to the seller if it is in good condition and complies with the health requirements of the seller's state. At the option of the buyer, the seller may issue a credit to the buyer for use in a future purchase or provide an animal of equal value subject to the approval of buyer. If the buyer exercises either such option, the claim shall be deemed fully and satisfactorily resolved. However, in the event that the buyer requests a refund of the purchase price, the seller may, at its option, either issue a refund of the full purchase price or, shall have 180 days from the date the animal is returned to the seller's farm to conduct a trial to demonstrate the returned animal is a breeder. Refund of the full purchase price or demonstrated proof that the animal is a breeder during the test trial shall be deemed full satisfaction and settlement of the claim. Any expense incurred for transporting an animal claimed to be a non-breeder will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place. If the seller proves the animal to be a breeder, it will be the obligation of the buyer to take delivery of the animal and pay all transportation expenses.

4) If a female sold as "safe in calf" proves not to be in calf, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be in writing to the seller within 180 days of the sale of the animal in question.

5) If a female represented as "safe in calf" to a certain bull at the time of sale proves to have been bred to a different bull, the seller must make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller within 180 days of the birth of the calf.

6) If a female sold as "open" proves to be with calf, the buyer may return the animal to the farm of the seller prior to calving for a refund of the full purchase price or for another animal of equal value, whichever is acceptable to the buyer. Seller is responsible for all transportation expenses.

7) If an animal is sold and subsequently becomes ineligible for registration under the rules of BBU for reasons other than incorrect parentage, the seller must make a satisfactory adjustment on the purchase price to the buyer, or at the option of the buyer, refund the purchase price upon the return of the animal to the farm of the seller.

8) If an animal (including the offspring of a pregnant recipient) is sold and through parentage verification is proven to have incorrect parentage, as represented by the animal's certificate of registration, and for which correct parentage can be determined, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the second anniversary of the date of the sale.

9) If the resulting calf of a pregnancy is not of the sex represented at the time of the sale, the seller is obligated to make a satisfactory adjustment on the purchase price to the buyer or, at the buyer's option, refund the purchase price upon the return of the animal to the farm of the seller. Any claim for adjustment or refund under this paragraph must be made in writing to the seller on or before the first anniversary date of the sale.

10) Unless stated otherwise, all transportation expenses incurred will be the responsibility of the buyer, except that the seller will be responsible for transportation costs in excess of the distance between the buyer's farm and the location where the sale took place.

Genetic Defects and Factors: Required Disclosures Relating to Certain Test Results or Potential Carrier Status of an Animal:

1) In advance of any sales of an animal, the seller shall have the affirmative duty to notify any potential buyer of any test results in which an animal for sale has tested positive (under a test and at a laboratory approved by BBU) as a carrier of any genetic defect or genetic factor recognized by BBU.

2) The seller guarantees that a bred female will not produce a calf with an inherited deformity occurring in Bovine for a period of nine months following date of sale.

Miscellaneous:

1) The above terms and conditions of sale constitute a contract between the buyer and the seller and are equally binding upon both parties. Each sale or resale of an animal constitutes a separate transaction.

2) Neither BBU nor any director, officer, employee or representative of BBU or any of its related entities shall be liable in any way with respect to a transaction conducted under these Sales Terms and Conditions; nor shall BBU, its directors, officers, employees or representatives be responsible in any way for enforcing the terms and conditions of any agreement between a buyer and a seller. Each buyer and seller agree to hold BBU, its directors, officers, employees, representatives and related entities harmless from all damages, expenses, claims, losses and other liabilities associated with a transaction conducted under these Sales Terms and Conditions.

3) No sponsor, sale manager, or other person connected with the management of a sale shall be liable in any way with respect to transactions conducted under these Sales Terms and Conditions.

4) These sale terms and conditions and all rights, obligations and duties arising hereunder and all disputes arising hereunder will be construed in accordance with, and governed by, the laws of the state in which the sale occurs, without giving effect to such state's choice of law rules.

5) UNLESS OTHERWISE EXPRESSLY STATED IN THESE SALE TERMS AND CONDITIONS OR ANY OTHER WRITTEN AGREEMENT BETWEEN THE PARTIES RELATING TO THE SALE OF BEEFMASTER, BEEFMASTER ADVANCER, E6 OR UPGRADING CATTLE UNDER THESE SALE TERMS AND CONDITIONS, SELLER MAKES NO OTHER WARRANTIES, EXPRESS OR IMPLIED, INCLUDING ANY IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, EVEN IF SUCH PURPOSE IS KNOWN TO THE PARTIES. THE REMEDIES PROVIDED IN THESE SALE TERMS AND CONDITIONS ARE THE EXCLUSIVE REMEDIES OF THE BUYER, OR ANY PARTY CLAIMING THROUGH THE BUYER, AND UNDER NO CIRCUMSTANCES WILL THE SELLER BE LIABLE FOR ANY INCIDENTAL, INDIRECT, SPECIAL, CONSEQUENTIAL, PUNITIVE OR EXEMPLARY DAMAGES UNDER ANY INDEMNITY PROVISION OR OTHERWISE.
