

Collier Farms

Mike & Rhonda Collier

Welcome to the Collier Farms Legacy Sale!

From our ranch to yours, we thank you for your interest in our cattle. Our primary sale objective is to offer **Beefmaster seedstock cattle that will meet the needs and objectives of you, our customer.** We value the success and profitability of your program because only together can we make a difference in the future of the Beefmaster breed!

What is the Legacy Sale about? It is about providing you with superb genetics that will increase the marketability of your cattle. It is building upon our reputation of customer service and satisfaction. It is about providing extra-quality cattle from proven cow families combined with bull power from proven and predictable pedigrees. The Legacy Sale is about sharing performance driven genetics with our customer because we care about your profitability now and in the future.

Because our philosophy is customer driven, it has always been our policy to **guarantee our cattle unconditionally.**

We are also committed to providing service after the sale, whether it be assistance with hauling, marketing options, management and mating support or just someone to bounce your ideas off of — we are committed to earning your trust!

We look forward to seeing you in Giddings, Texas on Friday night for dinner and Saturday at 10:00 am for the sale. If you should have any questions regarding the sale or the cattle please feel free to contact Bruce, Anthony or any of our consultants listed and of course myself or Trey Scherer, our ranch manager. We look forward to an enjoyable weekend event for everyone.

Collier Farms Advantage Program

The **Collier Farms Advantage Program** is a simple yet exciting new customer dedication program designed to enhance the potential marketing opportunities for breeders using Collier Farms genetics. The program will feature exclusive sales opportunities like the 2011 Advantage Sale, buy-back offers, cooperative performance testing through bull development programs and gain tests, as well as marketing assistance and genetic promotion of Collier Farms based cattle.

The central focus of the program is to assist Beefmaster breeders in the endeavor of realizing the true potential of their product. Because we at Collier Farms understand the many production and marketing challenges facing producers of all sizes, this program was created to provide a variety of marketing avenues, cattle development options, and product support essential to profitability and overall success.

The underlying beauty behind the **Collier Farms Advantage Program** is its simplicity and ease of use. From the beginning, **NO** exclusive participation levels or highly regulatory mandates were created. It is as basic as implementing ANY Collier Farms bred animal into your program. Simply put, any animal a breeder produces from a Collier Farms bred sire or dam qualifies for the Advantage Program. All calves from Collier Farms bulls, cows, semen, or embryos have met the essential requirements of the program. There are **NO** membership fees or hidden costs.

Once a breeder has a qualified animal there are no limits or restrictions as to when, where, or how they choose to market THEIR product. The **Advantage Program** only offers additional avenues or options in which breeders can take ADVANTAGE. Currently, producers can place bull calves in the Collier Farms performance gain test and sale, make plans to reserve a place in the upcoming Advantage Female Sales, or inquire about the buy-back offers available.

For more information about the Advantage Program or Collier Farms genetics contact us at www.collierfarmsbeefmasters.com or call the ranch at (979) 251-4175.

Technology • Experience • Communications

Bid and Buy live using the industry's best real time interactive online auction service.

www.advancedvideoauctions.com

Advanced Video Auctions (AVA) provides live video auctions, webinars, and many other marketing and meeting presentations in real time over the internet.

The **AVA** system was created and developed especially for the marketing and promotion of livestock and is well proven to provide a unique presentation for various livestock events via the internet.

Videos, still images and detailed information on each of the lots offered are available prior to the sale and may be viewed anytime at www.AdvancedVideoAuctions.com. You do not need a username or password in order to preview the sale offering prior to the sale, but we do encourage you to **Register Early** for the sale to obtain your username and password that you will be able to use on the **AVA** system for each sale where you desire to become a buyer.

On sale day you will log on with your username and password and will then be able to view the auction broadcasted with either live streaming video or pre-recorded video of the lots and on some events, you will see both. In addition, the **AVA** system provides **live streaming audio** from the sale site so you don't miss any part of the auction action, hearing the auctioneer and other comments announced. Plus, you can **privately chat** in real time with the on-site bid administrator.

Please go to www.AdvancedVideoAuctions.com to register for the sale or event. You only have to register once for all events held! Please try to register prior to sale or event day. Also, please note that payment terms are unique and specific for each sale. Please review any of the sale terms ahead of time and if you have any questions, you can contact the sale personnel designated for that auction.

Optimal Connection Speed: DSL, Cable internet or any Broadband internet connection. Minimum download speed of 512 is recommended.

Computer Requirements: Most any computer 6 years old or younger with the latest versions of Internet Browsers: Internet Explorer or Firefox with the Adobe Flash player installed are recommended. You can download the current version of the Flash player at www.adobe.com

Best Viewing: Set your computer screen to at least 1024 x 768 pixels.

Sale Day Help Desk: Please contact Erin Short at 210-408-7120 with any technical questions on sale day.

Dear Beefmaster Breeder,

Now is the time to make your plans to attend the **Collier Farms Legacy Sale** to be held **April 10, 2010** at the Homestead Ranch sale Facility in Giddings Texas.

Collier Farms reputation for producing Beefmasters that work in all environments and for everyone is a credit to their dedication to their breeding program philosophy of no excuses. These cattle will perform for you just as they do for Collier Farms. Collier Farms is constantly improving their product so you can also and now through your participation in their breeding program you will be offered the opportunity to participate in the **Collier Farms Advantage Sale Program**. This program will offer you a marketplace for both male and female offspring from your Collier Farms product. Another reason for you to make plans now to join us for this tremendous opportunity.

This sale offering is jam packed with opportunity and represented by individuals with the visual appraisal you need and the quality you desire. The **Logan, Fusion** and **Tabasco** offspring will confirm to the most discriminate breeder that they do put the product on the ground that will make any Beefmaster breeding program better. Add in the youth represented throughout the sale offering and the special semen opportunities and this unique opportunity is one you must attend to fully appreciate. This sale offering is full of productive, profitable cattle and all from a program you know you can trust.

Collier Farms has done their due diligence to get the proper product ready for you to be profitable. Now you must make the move to get involved with their breeding program and let them work for you the same way they have for Collier Farms. We will expect your arrival on **Friday to evaluate the offering and join us for supper**. But for those of you who can not join us we will have the sale on the internet at **AdvancedVideoAuctions.com** and we have a **sale offering DVD available**.

If you have any questions or need any assistance of any kind do not hesitate to contact myself, co-sale manager Anthony Mihalski, sale consultant Mike Green or Collier Farms. We are all ready to help you be more productive and profitable in your Beefmaster breeding program with Collier Farms Beefmaster.

See you in Giddings!

Dear Beefmaster Breeders & Friends,

I would like to invite and welcome you to the **Collier Farms Legacy Sale on April 10, 2010**. This is a true seedstock offering. You can expect the best across the board – you will be impressed.

The Collier Farms herd was built around tried and proven cattle that incorporate the very best genetics throughout the industry. We have all witnessed them purchase the top at the best of sales and through private treaty.

Mike Collier has utilized every breed improvement tool available, using the six essentials as a foundation. They have a very demanding culling program, an AI Breeding program using the top sires of the breed, a **well maintained 90 day Fall and Spring calving program**, and are able to identify and use over 50 Super Donor cows.

Mike Collier's slogan is "**Breeding Productive, Profitable Cattle**". His emphasis is on longevity which increases profitability. Collier Farm's breeding determination has been successful. He has won every major Futurity, even placing the Grand Champion Bull and Female at the same time in Houston. For the last four years of the Live Oak Bull Sale, they have put 2 to 3 bulls in the top 10. In January 2008, they received Grand and Reserve Champion honors and had a 20th place bull that was the second highest seller! Collier Farms Beefmasters have the looks to win, the pedigree to perform, with tried and measured backgrounds, and the foundation to remain productive. Every animal in this sale was selected with pride to represent this breeding program. It is based on honesty and integrity with a no-question asked guarantee!

Recently, the biggest win possible, Collier Farms had the Grand Champion Pen of 5 at the San Antonio All Breed Replacement Female Sale. This 19 year, elite event has been dominated by the best from all other breeds.

Please join us at the sale. If you are unable to be there, however, please contact us for a sale video, or view all the lots at **AdvancedVideoAuctions.com** where you can register to bid and buy online.

Sincerely,

Anthony Mihalski

Maternal Reference

****Lady Legacy**

Sire: **Sir Kiffer (**Cherokee Phantom USA x **Adair 062/7)

Dam: Moss 235/10 (**Levi x **Moss 111/5)

Lady Legacy is the caliber of female rarely found in donor herds due to the completeness she offers. With ease, one can notice the straight lines and correctness that is complimented by her overall depth and smoothness. This combined with a great underline, ample muscling, and a well designed udder makes her an easy 1, 2 classified cow. By age seven, Lady Legacy received typesetter status based on natural progeny and then entered our donor herd to produce some of our finest calves to date. Take special note of the maternal power and breed legends which can be found in her pedigree. Dam of Lots: 36, 50

****Jungle Honey Bear**

Sire: Jungle Ranger (**Ranger's Pride x **Jungle Red) x Fisher 0/18)

Dam: Honey Bear (55 Dandy x **Levi dghtr.)

An extraordinary female that continues to prove herself with each calf, Jungle Honey Bear defines what a true donor should be. When we began our current E.T. program, Jungle Honey Bear was the first on our list due to her perfect design and consistent production. This cow has produced great females such as the 2007 Grand Champion heifer in San Antonio and many more like her being kept in our herd. In addition to outstanding females, she has produced several powerful herd sires that are currently being used in our program. Jungle Honey Bear, like many other Jungle Ranger daughters, can be noted for her perfect udder design and ability to raise a heavy calf, year after year. Dam of Lots: 39, 40, 44

Penelope

Sire: **Painted Tiger (**Painted Warrior x **Dunkin 1-126)

Dam: Lady Victoria (**Spartacus x Victoria's Secret)

Brought into the Collier Farms E.T. program in 2007, Penelope exemplifies everything to be expected from Painted Tiger and Lady Victoria. Combining Painted Tiger with the legendary 293 cow family is a proven mating that has created some of the most impressive and productive cattle in the breed, and Penelope is no exception. She has produced several high selling offspring by a variety of sires and has the potential to mate well with countless other sires. Study the length of body, depth, thickness, and great fronts she puts on her calves. Dam of Lots: 4C, 5D

****Phantom's Diamond**

Sire: Patillo's Phantom (**Phantom x **Lady III)
 Dam: **Moss 639/3 (Diamond M 110-6 x **WU 666)

Truly a jewel of a female, this moderate framed darling boasts the genetic power, red coloring, structural design, and non-existent underline to make any herd bull look good. She is the dam of Fusion and several great females within in our herd. Her sire is a son of the legendary Phantom bull and Lady III, while her dam is a typesetter Diamond M 110 daughter. Phantom's Diamond will lower birth weights, improve udder designs, add red coloring, and clean up underlines, making her an easy choice for any donor herd. Dam of Lots: 49, 72B

Red Farrah's Dream

Sire: **Spartacus (**Gladiator x **Dreamlady)
 Dam: Red Farrah (**Red Sugar x **Farrah Lady)

As one of the most complete heifers we had ever seen, Red Farrah's Dream was purchased with high hopes of creating some of the best Beefmaster cattle ever produced. Since the time her first natural calf hit the ground and subsequent embryo offspring, those expectations were surpassed. Red Farrah's Dream has the conformational correctness, ample muscling, performance traits, and proven pedigree to become one of the next great Beefmaster females. Dam of lots: 5C, 43, 54

Bengal Baby

Sire: **Painted Tiger (**Painted Warrior x **Dunkin 1-126)
 Dam: Cathy's Treasure (**Infinity x ** Cathy Lee)

Even amongst an impressive set of high caliber females, Bengal Baby has redefined the level of excellence for which all other donors within the Collier Farms herd will be measured. At a very young age, this feminine yet powerful matriarch has produced some of the best donor and herd sire prospects available on the market and continues to impress with each new set of calves. Females like Bengal Baby will not only be the future of this program, but the coming direction of the breed. Dam of lots: 5B, 7A, 7B

Dusty Cotton

Sire: ***Classic Cotton (**Levi x ***McGrede 5/39)
 Dam: Miss Dusty (**Painted Tiger x **Lady Jaqueline)

With breed legends like Classic Cotton, Painted Tiger, and Lady Jaqueline, this donor female was sure to be a top producer, and she has never let us down. Dusty Cotton provides great lines, a long stretch, and impressive design to her offspring while maintaining performance and muscling attributes. This highly productive female produces large numbers of high quality embryos which in turn have become some of the most attractive cattle at Collier Farms. Dam of lots: 1, 34, 35, 71D

Clementine

Sire: **Cavalier (**Spartacus x **Lazy M 1-5/5)
 Dam: Sierra (**Synergy x **Farrah Lady)

The classic flowing lines of the 293 cow family combined with the muscling, power, and performance of Cavalier are more than evident in this highly proven donor female. Clementine has been a top producer of high quality offspring for many years and continues to impress breeders with her versatility and ability to mate well with a variety of bloodlines. Great maternal bloodlines that can pass on the attributes possessed by Clementine while mating to produce industry leading offspring are ever more vital to profitable seedstock programs. Dam of lots: 6A, 6B, 27

Beefmaster Breeders United – Voluntary Approved Sales Agreement

1. BBU Terms and Conditions of Sale will be strictly adhered to by buyer and seller.
2. All cattle to be sold shall be represented by the seller as properly identified with permanent identification number. All identification numbers and holding brands, branded or tattooed on an animal, and the description must match identically the identification numbers, holding brands and description listed on the Certificate of Breeding.
3. The designated BBU official responsible for implementing the above regulations will be at the sale site in ample time to inspect the cattle and the accompanying records.
4. All cattle exhibiting any genetic defect that at that time, in the opinion of the designated BBU official would be a detriment to the breed, and any cattle that at that time in the opinion of the BBU official would classify "X" under the BBU Voluntary Classification Program will be removed from the sale offering.
5. All cattle sold (with the exception of First and Second Cross calves under fourteen (14) months of age and the embryo recipients) must have BBU Certificates of Breeding. (All First and Second Cross calves under fourteen (14) months of age must be accompanied by a properly completed and executed Application for Certificate of Breeding.) The sale management or seller must present all Certificates of Breeding (or applications when applicable) to the BBU office fourteen (14) days prior to sale date. Substitute animals will be accepted provided the Certificates of Breeding (or applications) are in compliance with all applicable requirements upon arrival at the sale site.
6. The consignor/seller guarantees that the ID number, pedigree, birth date, performance, and any other data used to represent their cattle are true and correct as of sale day. All semen and frozen embryos sold at a BBU Approved Sale must have a BBU Bill of Sale provided at the time of the sale. The BBU Bill of Sale shall include, if applicable, the Blood Typing Case # and DNA Genotype Case # of the bull whose semen is sold, or the sire and dam of the embryos being sold. All A1 Sires and Donor Dams must have a DNA Profile on file (or Blood Typing, if applicable) at BBU.
7. If an animal is classified, such classification must be reflected in the catalog, as provided for below or on the pen card if applicable or announced from the box. All existing available official BBU performance information will be included in the following block, (only that portion of the block must be printed where official BBU information exists) for the display of official BBU classification and performance information. The sample block below may be used or other formats may be used but the information must be official BBU data as listed on the registration certificate.

8. REMEDIES:

FEMALES: OPEN AND/OR EXPOSED FEMALES are guaranteed to be breeders by twenty-four (24) months of age except in cases of animals purchased and then fitted for show or administered any super ovulation drug. In cases of animals fitted for show or administered any super ovulation drug after purchase, the breeding guarantees, if any, shall be such as agreed upon between buyer and seller. All claims for a refund must be made in writing to the seller within six (6) months after the animal reaches twenty-four (24) months of age. Open females are so guaranteed. If within sixty (60) days after the sale date, a female sold as "open" proves to be with calf, the buyer may return the female to the farm of the seller, provide the female is in good condition and in compliance with the health requirements of the seller's state, and receive refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The buyer's failure to notify the seller within sixty (60) days from the date of sale and to make the election as hereinabove provided shall relieve and absolve the seller of any duty, obligation or liability to the buyer regarding the purchase of said female. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.

SAFE IN CALF FEMALES have been examined by a competent veterinarian and are so guaranteed. If within thirty (30) days after sale date, a female sold as "safe in calf" proves not to be in calf, the buyer may immediately request that the female receive service from the bull previously used, if available, or return the female to the farm of the seller, provided the female is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The buyer's failure to notify the seller within thirty (30) days from the sale date and to make the election as hereinabove provided shall relieve and absolve to the seller of any duty, obligation or liability to the buyer regarding the purchase of said female. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller.

FLUSHES AND TIME REQUIREMENTS: A flush consists of all viable embryos,

transferred or frozen, received from a female as the result of the administration of any super ovulation drug. The sale of a flush or resulting pregnancies must specify in the sale catalog the number of pregnancies guaranteed and the disposition of any other pregnancies resulting from the flush, the disposition of any frozen embryos resulting from the flush and any additional charge for the recipient cows. Further the maximum time for the delivery of the guaranteed results must be specified along with a payment schedule. Non delivery or only partial delivery by the specified time by the seller will result in a refund (pro rata to that delivered) of all monies previously paid by the buyer for such flush or pregnancies not delivered.

PREGNANCY AND/OR PREGNANT RECIPIENT COW: Pregnancy and/or pregnant recipient cow is a cow of any breed that is carrying a pregnancy (examined by a licensed veterinarian and so guaranteed as safe in calf) as the result of a flush as so stated on the certification of embryo transplant form. Such pregnancy and/or pregnant recipient cow is guaranteed to be carrying the embryo pregnancy so stated and if found not safe in calf by a licensed veterinarian within thirty (30) days of delivery of the recipient cow to the buyer, the buyer will have the same remedies as so stated herein for the safe in calf females. The amount bid by the buyer for the individual pregnancy and/or pregnant recipient cow offered at a sale will be inclusive of the recipient cow with no additional cost. A pregnancy and/or pregnant recipient cow should be available at the sale site; however, if not available it must be delivered to the buyer, at the seller's expense, within thirty (30) days of the sale with the necessary health papers sufficient for delivery to the buyer.

CLONES: Only BBU replication cell-cloned animals shall be eligible for registration and eligible to sell in BBU Voluntary Approved Sales. Genetically modified animals shall not be eligible for registration and cannot sell in BBU Voluntary Approved Sales. Cloned animals shall be guaranteed by the seller(s) to be breeders under the same terms of the agreement for females and bulls. **ALL ADDITIONAL GUARANTEES WITH RESPECT TO CLONES SHALL BE A SEPARATE AGREEMENT BETWEEN BUYER AND SELLER.**

BULLS: If within one-hundred twenty (120) days from the date of sale, the bull has failed to pass a Breeding Soundness Evaluation (BSE) certified by a licensed veterinarian, the BSE test and notice of failure of the test must be sent to the seller within 120 days of the sale. Another Breeding Soundness Evaluation (BSE) should be performed on the bull by a licensed veterinarian or technician certified by a licensed veterinarian mutually agreeable to the buyer and seller at the buyer's expense. The results of the test certified by said veterinarian shall be deemed final and conclusive of this matter and binding on both Parties. If, in the opinion of said veterinarian, the bull is unable to pass a Breeding Soundness Evaluation (BSE) and be confirmed a satisfactory potential breeder, he shall so certify in writing to the seller and the buyer including sending the official form used by the Society of Theriogenology or the official BBU Breeding Soundness Evaluation form. In such event the buyer may return the bull to the farm of seller, provided the bull is in good condition and in compliance with the health requirements of the seller's state, for a refund of the full purchase price. The acceptance of the refund of the full purchase price shall in any case be deemed full satisfaction and settlement of the matter. The seller and buyer shall bear equally all reasonable and necessary transportation expenses that are incurred in returning the animal to seller. A listing of industry standards for Scrotal Circumferences for bulls at various ages will be printed in the sale catalog. Satellites, Marketing Groups, or individuals may specify additional guarantees.

9. Fees for all services rendered in BBU Approved Sales are available on file at the BBU office.
10. BBU Certificate of Breeding number of the service sire of a bred female must be indicated in the sale catalog (if multiple sire, so state in the catalog).

In making this agreement, I agree to indemnify and hold harmless BBU, its officers, directors and duly authorized representatives from any liabilities which may arise from a BBU Approved Sale. I have read and understand all of the above rules governing BBU Approved Sales; I understand that if I voluntarily agree to enter into an Approved Sale, these rules shall apply to the sale and, I will abide by said rules.

These provisions shall not apply to any sale that has not qualified to the satisfaction of Beefmaster Breeders United as a "BBU Approved Sale." Such qualification shall be manifested by the certifying statement of an authorized person on the staff of or an officer or director of BBU expressed from the sale box immediately prior to the sale.

FAILURE BY A MEMBER TO COMPLY WITH THIS SIGNED AGREEMENT WILL BE AUTOMATIC CAUSE FOR APPEARING BEFORE THE BBU ETHICS AND RULES COMMITTEE TO SHOW CAUSE WHY HE/SHE SHOULD BE PERMITTED TO RETAIN HIS/HER MEMBERSHIP IN BBU.

For consignors: "This Agreement shall be binding upon me from this day forward for all BBU Approved Sales in which I participate as a Consignor, and shall remain in effect and binding upon me until such time as I or BBU shall in writing revoke this Agreement."

For Sale Managers and Consultants: "This Agreement shall be binding upon me from this day forward for all BBU Approved Sales in which I participate as Sales Manager and/or Consultant, and shall remain in effect and binding upon me until such time as I or BBU shall in writing revoke this Agreement."

BBU Terms and Conditions of Sale

1. **BIDDING:** Each animal will be sold to the highest bidder without reserve.
2. **BIDDING DISPUTE:** The Auctioneer in charge will settle any dispute as to bids, and his decision on such matters shall be final.
3. **TERMS:** Terms of the sale are cash due upon sale, unless prior credit arrangements for the sale have been agreed upon in writing between the Buyer and Seller, in which event, the terms of the written credit arrangement between the Buyer and Seller for the sale shall prevail. The failure of a member buyer to pay the appropriate party the sale amounts when due may constitute a cause for exclusion from BBU pursuant to Article I, section 9 of the By Laws of BBU.
4. **PURCHASER'S RISK:** Each animal becomes the risk of the purchaser as soon as the auctioneer declares it sold.
5. **CERTIFICATE OF BREEDING AND/OR TRANSERS:** All required paperwork will be transferred to the buyer at the seller's expense, upon settlement.
6. **HEALTH:** All animals will have appropriate certificates of veterinary inspection for travel to the sale site and will to the best of the seller's knowledge be eligible for interstate shipment, however, buyers need to be aware of their individual resident states requirements for shipment of cattle. Any and all testing will have been completed within thirty (30) days of the sale date.
7. **ANNOUNCEMENTS:** Any changes in information of any kind will be announced from the auction box and such announcements shall take precedence.
8. **BREEDING GUARANTEES:**

FEMALES: OPEN AND/OR EXPOSED FEMALES: Females younger than twenty-four (24) months of age can be sold as open. Open females are so guaranteed. Any female is considered a breeder if she is certified to be pregnant by a licensed veterinarian at the time of sale and/or has a nursing calf at side. Cows (including donor cows) with calves at side six (6) months or older must be certified to be pregnant by a licensed veterinarian.

SAFE IN CALF FEMALES have been examined by a competent veterinarian and are so guaranteed.

BULLS: Bulls eighteen (18) months or older are guaranteed to have passed a Bull Breeding Soundness Evaluation (BSE) and to have been certified a satisfactory potential breeder by a licensed veterinarian within forty-five (45) days prior to sale date. The results of the Breeding Soundness Evaluation (BSE) must be reported on a fully completed official form and attached to the health papers required for the sale.
9. If known to the seller, there must be a disclosure in the current sale catalog or from the box of any circumcision or other surgical alteration of any underline of any male or female and of any single egg or super-ovulation flush of any female sold in a BBU Approved Sale.
10. **INHERITED DEFORMITIES GUARANTEE:** All bred females are guaranteed not to produce a calf with an inherited deformity occurring in Bovine for a period of nine months following date of sale.
11. **GUARANTEES:** All guarantees, if any, shall be such as agreed upon between the seller and the buyer and are not those of BBU. Any representations made in Sale Catalogs, which are not expressly assured by these Terms and Conditions of Sale or the BBU Voluntary Approved Sales Agreements are those of the seller only and are not assured in any way by BBU.
12. **RIGHTS AND OBLIGATIONS:** The above terms and conditions of sale shall constitute a contract between buyer and seller of each animal and shall be equally binding upon both. Each sale or resale of an animal constitutes a separate transaction. Neither BBU, the sale manager nor any other person connected with the management of the sales assumes any liability, legal or otherwise, for any subsequent resale of an animal.

Voluntary Classification Guidelines:

Cattle are visually inspected by a BBU field representative for desirable traits. Each animal is classified according to BBU's Standards of Excellence.

Any bull or female in the "U" category will be so designated on the BBU Certificate of Breeding along with the date and initials of the BBU field representative. To be presented for a "U" classification, a female must be a minimum of 8 months with no upper age limit and a male up to 24 months with a scrotal measurement of at least 30 cm taken between 320-410 days. Classification of Certified Beefmaster cattle is \$5.00 per head or \$350.00 per stop, whichever is greater.

Any bull or female in the "X" category will be removed from the registry by BBU's office and so noted by correspondence to the member. BBU will not charge the member a classification fee for an "X" animal.

Bulls must have a yearling scrotal measurement (taken between 320-410 days of age) of at least 30 cm to meet the "U" qualification. A measurement of 34 cm is the objective.

All cattle presented for classification must have permanent identification and must be certified or an application for certification must be presented to the field representative.

To receive a number score on a female, she must have already received a "U" classification and have had her first calf so the BBU field representative can evaluate udder and mothering ability as consideration of her numerical score. Two numbers will be given; one for conformation and one for underline.

To receive a number score bulls must have already received a "U" classification, be a minimum of twenty-four months of age with a current scrotal measurement of at least 34 cm. Two numbers will be given; one for conformation and one for underline.

Scrotal Circumference Scores:

SCORE	AGE		
	15-20 Mo. Old	21-30 Mo. Old	Over 30 Mo. Old
Very Good	More than 37 cm.	More than 39 cm.	More than 40 cm.
Good	31-37 cm.	32-39 cm.	33-40 cm.
Poor	Less than 31 cm.	Less than 32 cm.	Less than 33 cm.

BBU Mission Statement

To enhance breeder's ability to raise and promote cattle based upon the founding "Six Essentials."

• Disposition • Fertility • Weight • Conformation • Hardiness • Milk Production

Our Vision: To increase worldwide demand for Beefmaster cattle. Guiding Principles:

1. Always Strive for Breed Improvement 2. Never Compromise Integrity 3. Expand... Encourage... Educate...

Lot 1

Herd Sire Prospect - 465/8

Brand 465/8
 BBU No. C985186
 Birth 09/19/2008
 Breeder Collier Farms
 Color Red

Consistent, predictable quality is the bedrock upon which top seed stock operations are built upon. This impressive young herd sire prospect displays those highly desired characteristics which are vital to the success of progressive registered breeders. CF 465/8 is by Logan, one of the most productive and proven young bulls in the breed, and out of Dusty Cotton, a tremendous donor that produces both top bulls and extra fancy females. Study the overall length of body, strong top-line, distinct muscle definition, and perfect leg set this bull offers. Combine these physical design features with solid dark red coloring, an excellent sheath design, and strong performance numbers for a complete herd sire prospect. Watch for his heifer siblings in lots 34 and 35 and embryos as lot 71D. Actual Birth Weight: 83. Actual Yearling Weight: 985.

Herd Sire Prospect - 420/8

Brand 420/8
 BBU No. C972706
 Birth 03/10/2008
 Breeder Collier Farms
 Color Red

CF 420/8 is another example of outstanding progeny from great genetic lines. This is the first natural calf of Tiger Mania, one of the newest additions to our elite donor herd. Study the overall power and bone carried by this young bull without sacrificing a clean underline. Solid red color, predictable lineage and strong numbers make this herd sire prospect a must have. CF 420/8 had an actual BW of 80 lb. WW of 615 lb., and YW of 932lbs all as a "first calf."

Logan on Tiger Joy has become one of our guaranteed go-to matings every time. You saw the calf pick as lot 5A, now you're looking at a little older more developed version. One of their older sisters was a high selling lot at the 2009 Houston Futurity and the others are productive young cows in the Collier Farms herd. You will love the udders, the disposition, and the consistent high quality offspring they produce. Embryos of this mating sell as lot 71A.

Wow! Look at the power and thickness of this young Logan heifer out of a 007 daughter. Rarely, will you find this much muscle in a heifer this clean and tidy throughout her front end and underline. If you are serious about producing cattle with muscle while maintaining solid color, fertility, and good underlines, this is your heifer.

We really, really didn't want to sell this amazing heifer, but we were dedicated to offer you only our best and that is what we did. This heifer is impossible to fault. Look at her lines, her leg set, top line, underline, color, squareness, front end, and more. You can see her yourself but what you don't know is that she is out of an outstanding young brood cow with a perfect udder that breeds back right away every time. Back all this up with Logan on top for an easy choice.

These fancy made Logan daughter just keep coming. This is a real doll with all the femininity and class you could ask for. Now study the bottom side of the pedigree. 007 on Lady Jungle Ranger is fertility and productivity at its best. The dam of this heifer is an embryo calf we produced just for the purpose of replacing those older brood cows that had worked so well for years in the program. This young heifer is set to do the same just look at her EPD's.

Here is another big stout Logan heifer with lots of body and power. This is not her first time in the camera, as she and her dam were a cover shot for one of our ads last spring. She goes back to strong Midas breeding on bottom and heavy maternal characteristics. This heifer has been a high performer all her life and is sure to pass that to her offspring.

Open Heifer - 722/9

Brand 722/9
 BBU No. C985111
 Birth 01/01/2009
 Breeder Collier Farms
 Color Red SF WU

King's 7 proves what he can do again and this time on a Tabasco daughter that goes back to Jungle Ranger. You can see what our program is doing here by building on strong maternal backgrounds and enhancing them with some of our newest upcoming herd bulls. Just look at the muscle, strength of top, and overall correctness in this young female.

 Color Dark Red
 Exposed To: Tiger J CF 918/7 C972665

This is why we love Fusion in our program. Fancy, well designed cattle with low birth weights, good performance, and easy fleshing ability are just a few of our reasons. This extraordinary heifer is out of a Broadcast daughter going back to Synergy and Painted Tiger. To top it all off, this female was a first calf out of a great young cow and you know the udder will be nice.

 Bred 4 mos. to Fusion; C907807

We can't say enough about Logan on Lady Legacy. This mating maybe the most consistent ever produced. We are already seeing great herd bulls like Logan's Legacy and CF Legacy coming up through the breed ranks as top herd bulls. Additionally many of the females are donors in herds domestically and internationally. Lady Legacy proved herself in our last Legacy Sale and now is the time to acquire some of her production while it's still available. This heifer has the genetics and bred the first time she was Aled to our proven Fusion bull. ECD 9/10/10.

Exposed Pair - 791/7

Brand 791/7	Brand 825/9
BBU No. S23065	Sex M
Birth 02/05/07	BBU No. C986908
Breeder Collier Farms	Birth 12/14/09
Color Red	Breeder Collier Farms
	Color Red

CF 791/7 is a super broody young cow with a great udder and stout young calf. The easy fleshing ability and moderate frame size is evident in this fancy 2C cow. This is the kind of cow you prove an upcoming young herd sire with. Can we suggest lots 1,2, or 3?

Exposed to Tiger J C972665.

Birth 03/21/07	BBU No. C986909
Breeder Collier Farms	Birth 12/12/09
Color Light Red SF MU	Breeder Collier Farms
	Color Red

This young 2C cow is just like the others only built on a little smaller frame with just as much production potential. Her purebred bull calf has lots of promise and could be a high seller later on. Remember, these calves qualify for the Collier Farms Advantage Program.

Exposed to Tiger J C972665.
