INTERSTATE CATTLE SERVICES, INC.

Dear Beefmaster Breeders,

I would like to welcome you to one of the greatest buying opportunities you will be presented in all of 2013! The Channarock Farms Mature Cow Dispersal. Not very often does a breeder of this magnitude make the decision to give you access to the genetics which many breeding programs are built upon. Last fall, Charlie and I took a walk through his entire cow herd, and realized he had many great females who were being far underutilized. Many of these females are flush quality individuals, and need to be the foundation of a younger operation trying to focus on quality Beefmaster genetics, with outstanding performance, show ring eye appeal, and a desire to be the best!

Charlie has spent the last 10 years focused on bringing the Beefmaster breed to a performance level that the cattle industry will respect. This desire is driven by the need to be able to market his Beefmaster cattle in the region in which he lives. Though there are many different breeding philosophies within the Beefmaster breed, Charlie has chosen to focus on the beef industry itself. He has religiously recorded weights and measures, ultrasound for carcass, and bred cattle to improve upon this data year after year.

In addition to performance, Charlie has remained committed to the cow families he has developed. The foundation of his program begins with the Model and Phannie Mae cow families. Most of this sale offering can be traced back to one of these two lines. Charlie has raised some of the most popular bulls in the breed, starting with the legendary Cherokee Phantom USA. Polled Mandate, the first red, polled herdsire to consistently produce quality offspring, without the pitfalls of single trait selection. Black Bayou, the Polled Mandate son, who has sired some of the top futurity and show ring champions within the Beefmaster breed. Rasin' Cain, Channarock's latest herdsire, and the perfect combination of the Model and Phannie Mae cow families. This sale offering is full of young progeny, and the first ever offered all by Rasin' Cain!

If your program is in need of consistent, reliable genetics, and you have grown tired of following the latest Beefmaster trend, only to find it has changed once you have finally acquired it, take a look at the Channarock sale offering. Proven, consistent, quality marketable genetics, with reality as the basis.

This is truly the buying opportunity of the year, many one of a kind females will be offered! Don't miss out on the chance to purchase exclusive genetics, in 3 in 1, and pair packages. Get the most for your dollar at the Channarock Farms Mature Cow Dispersal, Saturday June 1, 2013!

Sincerely,

Dan Waddoups
